Etiquette Dinner and Raytheon

Gain the opportunity to eat dinner with the representative(s) of a company, and you have no knowledge of proper etiquette. Along with the Black Engineering Society and the Society of Hispanic Professional Engineers, we will be hosting the Etiquette Dinner with Raytheon.

Raytheon is a technical and innovation leader company that specializes in government markets such as defense and homeland security. More information about Raytheon can be found at www.raytheon.com. The etiquette dinner is another way of networking with representatives and to gain a better understanding of the workforce. This event will be held Tuesday, November 3rd from 5pm to 6:30pm in room 1107 in Kim Engineering Building.

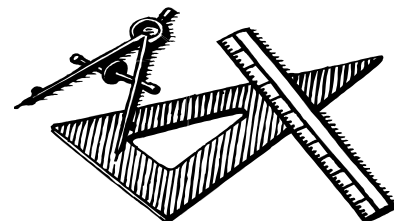

Engineering Day

On Saturday November 7th, middle school students and parents will experience the engineer department at the University of Maryland. The middle school students will part take on various activities to build leadership, teamwork, and brainstorm techniques in a working environment. These fun activities include building model bridges and creating silly putty.

On the other hand, the parents will attend workshops about the college admissions and financial aid to start the preparation for sending their children off to college. Also, the children and parents will go on exclusive department tours such as the Neutral Buoyancy Lab and Laser Lab.

Project Share

Want to do community service? As part of the community outreach portion of SCORE, we will help sponsor the event, Project Share. Project Share is a community effort where girl scouts, school organizations, citizens, and churches come to a warehouse located in Hyattsville, Maryland and package food for underprivileged families. It will be held on Saturday, November 14th from 8am to 11:30am. Please come help out and make a difference for unfortunate families.

Game Corner

When I add 3 times my age 3 years from now to 4 times my age 4 years from now, I get 8 times my current age. How old will I be 4 years from now? The answer will be posted in the December issue. Answer to the October problem: The numbers were in alphabetical order.

SCORE JR.

Thanks to our Outreach Chair (and acting vice president), Amber Liverpool, Score has established a junior chapter at Flowers High School. (Hooray for Amber). On Thursday November 19th, we will be interacting with the students about the science and technical studies and college life at the University of Maryland. The high school students will not only gain more knowledge, but will be more comfortable in preparation for college.

Internship and Externship

Head over to the University Career Center on Thursday November 5th from 4pm to 5pm to learn about finding internship and gain information about the Terp Externship Program. The Terp Externship Program is a one or two day job shadowing experience. Participants will observe and network with professionals at the work place. Thru the program, participants will gain working experience, professional network, and have a better understanding of their career goals.

Fall Regional Conference

Within the National Society of Black Engineers, the Fall Regional Conference (FRC) is an event that is held on November 20th-22nd in Greensboro, North Carolina. The FRC is a chance for engineers and other technical persons to have a better understanding of their fields in the career environment. Students and professionals from all over the region will network and compete with one

another thru the event. The activities for the event include the career fair, the Academic Tech Bowl (ATB), step competition, seminars and workshops. Want to join? Then sign up online at www.nsbe.org before you miss out on all the fun.

Winter Leadership Retreat

After winter break, SCORE will be hosting the Winter Leadership Retreat. It is an event that provides leadership skills, builds teamwork, communication skills, and network with technical professions and corporate representatives. The Winter Leadership Retreat helps students to achieve knowledge and skills to achieve their goals. The event will be on the University of Maryland campus.
