*Welcome* returning and new students!!

SCORE is an organization whose purpose is to recruit, retain and support underrepresented minority students in the College of Computer, Mathematical, and Physical Sciences.

Over the summer, the executive board members of SCORE have been working hard planning events for this 2009-2010 year. Some of these events include mock interviews with Booz Allen Hamilton, etiquette dinner with Raytheon, and Chill n' Grill. Enjoy your semester and come meet with us again!

## Member Spotlight

Our first member on spotlight for 2009-2010 is SCORE President, Robin Brewer. Over the summer, she has contacted many companies, planned SCORE events, and kept the connections open among the executive board members.

## Graduate Spotlight

Our wonderful graduate coordinator, Paris Alexander, has also worked hard making sure the SCORE mentor program will be a great success and represented SCORE for the Summer Bridge 2009 panel.

## Game

Solve this riddle:

A farmer has to cross a river with a fox, a duck and a bag of corn. The only way to cross the river is on a boat, which is only capable of carrying the farmer and one of the three listed. However, the fox will eat the duck and the duck will eat the corn when left alone. How many trips does the farmer make to cross river with all three items?

Answer will be posted in the next issue
